Sidney Levinson, MD  
Professor

Specialty: Gastroenterology and Hepatology  
Procedures and Research: Colorectal cancer screenings, non surgical treatment of hemorrhoids.

Medical School: Cornell University  
Residency: Cornell Medical Center and Memorial Sloan Kettering Cancer Center  
Area: Internal Medicine

Fellowship: University of North Carolina at Chapel Hill  
Area: Gastroenterology

Certifications: Internal Medicine, Internal Medicine-Gastroenterology

UNC Gastrointestinal Procedures (UNC Hospitals)  
101 Manning Drive  
N.C. Memorial Hospital  
Basement  
Chapel Hill, NC  27514

Shifali Arora, MD
Assistant Professor of Medicine

Specialty: Gastroenterology and Hepatology
Subspecialty: Gastroenterology and Hepatology - Esophageal Diseases and Swallowing Disorders

Procedures and Research: Quality improvement as well as the study and use of novel health technologies to better evaluate and treat gastrointestinal diseases, specifically looking at ways in which sensors and apps can be incorporated into clinical care.

Special Interests: General gastroenterology and endoscopy

Medical School: University of Illinois at Chicago
Residency: Duke University
Area: Internal Medicine

Fellowship: National Science Foundation
Area: Health Information Technology
Honors: American Association for the Advancement of Science, Technology and Policy Fellow

Fellowship: Rush University Medical Center
Area: Gastroenterology and Hepatology

Bachelor of Arts: University of Illinois at Chicago
Area: Biology, Psychology
Honors: Magna Cum Laude

Todd Baron, MD
Director, Advanced Therapeutic Endoscopy

Specialty: Gastroenterology and Hepatology
Subspecialty: Gastroenterology and Hepatology - Gastrointestinal Procedures

Procedures and Research: Clinical: advanced endoscopic procedures, endoscopic treatment of complex gastrointestinal disorders, management of complications of acute and chronic pancreatitis, treatment of benign and malignant biliary and luminal obstruction. Research: endoscopic management of diseases throughout the gastrointestinal tract; developing improved methods of treating a variety of conditions using interventional endoscopic techniques, many of which were previously treated surgically.
